

Confirmation of Institutional Membership - 2022

Welcome to EAFP

Membership entitles your institution to receive information on the latest developments in pharmacy education and training in Europe and the possibility to network with other member institutions to share experiences in pharmacy education and research projects. All staff of member institutions can participate at the Annual Conference of EAFP and other activities organized by EAFP at a substantially reduced fee.

In addition, member institutions have the privilege of placing announcements (news, conferences, training activities) and vacancies on the EAFP website free of charge. Please submit your announcements to our Secretarial Office.

A link to the home page of institutions which have paid the membership fee during any year in the last three years is provided in the EAFP website (updated on a regular basis). Member institutions are advised to check the links and to inform us of any necessary changes or improvements. It is also suggested that member institutions place a link to the EAFP website on their institutional home page.

Professor Lilian Azzopardi
(President)

Professor Andries Koster
(Treasurer)
